

Experience

Board Certified Vocational Rehabilitation Expert

Craig has significant experience in providing employment-related consulting services to a wide variety of employers and workers. Services have included vocational rehabilitation counseling, case management, employability assessments, development of retraining plans, and coordination of return-to-work and injury reduction programs. Craig has also had the opportunity to provide expert testimony on a continuous basis regarding employment-related matters.

- Interviewed and evaluated workers and conferred with medical and other professional personnel to determine type and degree of workers' disabilities, eligibility for service, and feasibility of vocational rehabilitation.
- Determined suitable job or business consistent with workers' desires, aptitudes, and physical, mental, and emotional limitations.
- Planned and arranged for workers to study or train for specific jobs. Assisted workers with personal adjustment throughout rehabilitation program.
- Promoted and developed job openings. Placed qualified workers in employment. Worked toward increasing workers' capacities to support independent living.

Professional Biography

Craig Bock is a Board Certified Vocational Expert, Certified Rehabilitation Counselor and Certified Ergonomic Assessment Specialist who has obtained a Master of Arts Degree in Vocational Rehabilitation Counseling. Craig began his professional career as a Vocational Rehabilitation Counselor in 1997 and formed Bock Consulting in September 2003. Craig has been president on two occasions of the International Association of Rehabilitation Professionals (“IARP” - Washington State Chapter) and is a registered counselor with the State of Washington. Given his breadth of employability assessments conducted Statewide, Craig is knowledgeable of the return to work opportunities and labor market specifics throughout Washington State. Craig oversees the operation of Bock Consulting's two offices in Bellevue and Tri-Cities WA which includes vocational rehabilitation counselors, medical case managers, research staff and office administrators.
